**Book:** My Life in Dog Years

**Reviewer:** Literacy Class

**Level of Difficulty:** Easy

**My thoughts about the book and its suitability for my group:**

This book is a series of chapters, each of which is about a dog that the author has owned or known. It is an easy-read, 135 pages in large type. The stories are very well-written, so even people that are not dog-lovers could enjoy them.

**Students’ reactions to the book:**

The students enjoyed reading about the different dogs and their individual personalities. Some of the stories are hilarious.

**Tips for other tutors who may want to use this book:**

I would offer this as one of a couple of possibilities for the class to read because it is only about dogs.
