Collection of 50 Videos: Best Practices for Tutoring Adults in Reading

This collection of 50 videos was produced by San José Public Library’s Partners in Reading program and Santa Clara City Library’s Read Santa Clara program.

These videos include tutor/learner pairs demonstrating the evidence-based reading strategies in clear, easy-to-replicate segments. The focus is on fluency, decoding and phonics, phonemic awareness, vocabulary, and comprehension. There are also several videos about planning for and holding the first meeting with a new learner.

Tutors and teachers can use these videos independently, or adult literacy programs can integrate them into their tutor training. They are useful for new instructors as well as more experienced instructors looking to improve their skills or tackle a specific learner need.

View the whole collection on YouTube at http://tinyurl.com/literacytutoring. Or select a topic from the list below and go directly to the video by clicking on the name.

This online training was made possible in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.
