Apple Functions | User Interface

Lock Screen

How to wake the iPad:
- Push the Sleep/Wake button
- Push the Home button

> slide to unlock
Swipe to the right to unlock iPad

Home Screen

Press the Home button to return to the Home Screen at any time.
Apple Functions

Spotlight Search allows you to search content on the iPad. At the Home Screen, swipe down to reveal the search field.

Siri can be accessed by pressing & holding the Home button. Try asking her a question!

Multi-Tasking lets you view and switch between open apps. Swipe left or right to browse through them.
**Settings**

Here you can customize the iPad’s wallpaper and sounds, manage email accounts and notifications, set security, privacy and accessibility options.

*Note: Settings will be enabled on public iPads, but will reset when they are returned to the kiosks.*

**Control Center** allows you to quickly access controls, basic apps and change settings. Swipe up from the bottom of the screen to access the Control Center anytime.
Basic Apps | Camera

The Camera app can take photo and video with the iPad’s iSight camera (rear-facing) or the FaceTime HD camera (front-facing).

Camera Screen

Photos App - access photos and videos here.
**Basic Apps | Safari**

Safari is the iPad’s web browser. As you type in the Smart Search field, Spotlight suggestions display results from sources like Wikipedia, news sites, Maps, iTunes, movie listings, and more.

The Safari app can be found on the bottom of the screen on the Dock.
